

Barbour Plastics, Inc.

Extruded Rigid & Flexible
PVC Mouldings
& Trim Profiles

This brochure represents a collection of over 150 of the most commonly ordered rigid and flexible Barbour mouldings. Applications for these extruded thermoplastic profiles vary from table edge trim, carpet trim and corner guards to product display bumper mouldings and wall mount protection systems. Profiles are shown at actual size.

Barbour mouldings can be:

- ❖ Matched to your color specifications or selected from over 150 stock colors.
- ❖ Made from interior or exterior grade PVC.
- ❖ Extruded with a low or high gloss level.
- ❖ Applied with double sided adhesive tape (PSA or VHB).
- ❖ Cut to length, punched, drilled or heat formed to your specific application.
- ❖ Matching end caps and splice caps are available for some profiles. Call for details.

Custom mouldings

Barbour Plastics has custom profile capabilities to meet your specific requirements. Our in-house tool and die shop allows us to complete customized tooling both efficiently and at extremely competitive prices. Call us at (508)583-8200 to discuss your specific needs.

Color key to mouldings

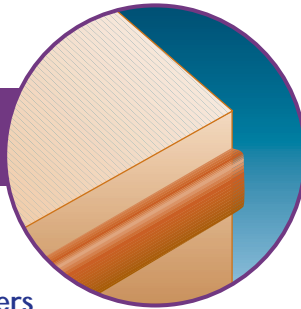

R = Rigid

F = Flexible

Flat Trim Mouldings

Barbour's rigid flat trim mouldings succeed in accomplishing the most basic of needs in trim application. Always of high quality, our flat trim mouldings provide the answer to those seeking an economical solution.

Applications

- Wall bumper
- Decorative trim
- Protective bumpers
- Wear strips
- Strike plates

Applications

- Carpet edging
- Product trim
- Safety bumpers
- Wall rails
- Display bumpers

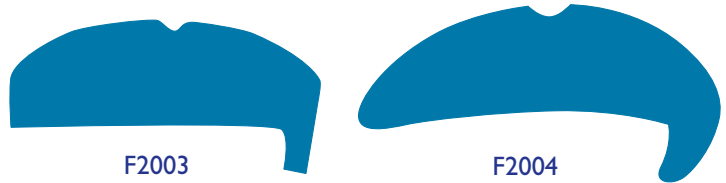

Bumper Moulding & Trim Profiles

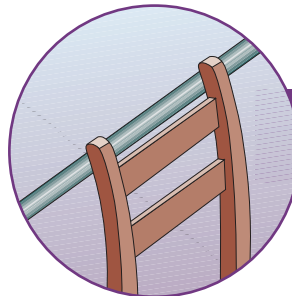

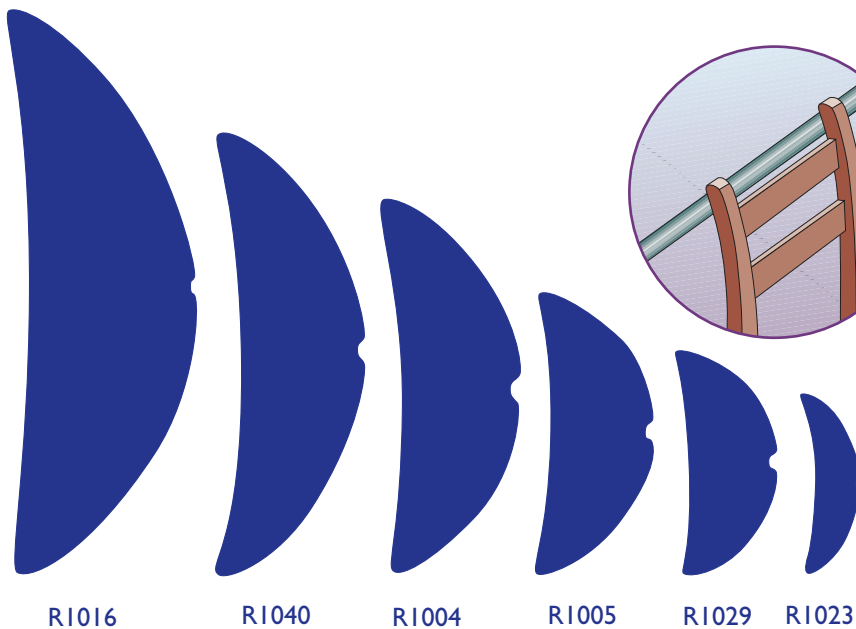

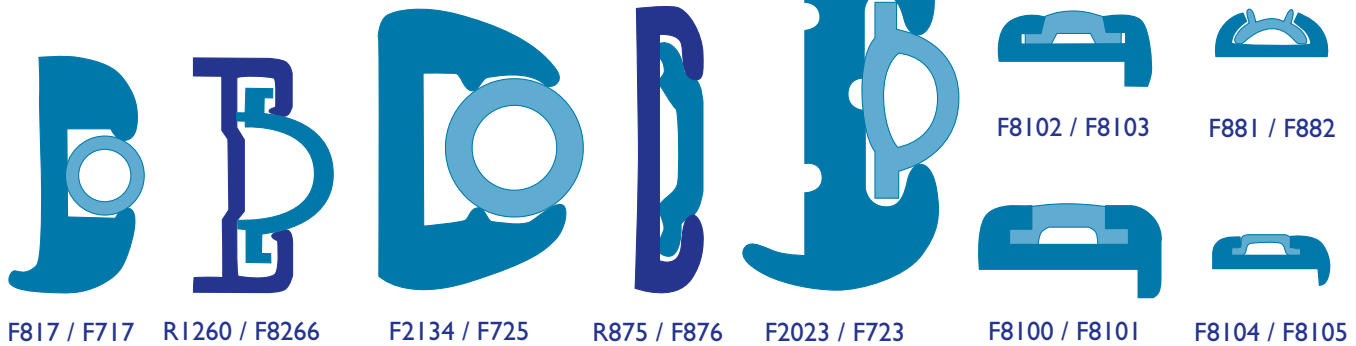

One piece flexible trim mouldings have self-contained flaps that cover the fasteners.

Our economical, flexible solid profiles with a centerline screw groove are easy to install.

Two piece units are great for decorative bumper mouldings or for finishing trim while hiding screw heads. Two piece flexible units are ideal for radius bends and maximum impact.

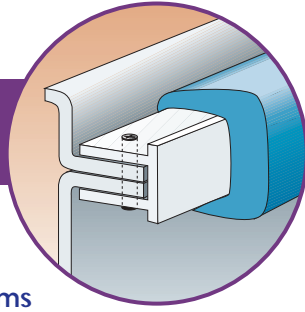

Half Ovals

- Applications**
- Wall rails
 - Equipment bumpers
 - Wear strip
 - Strike plates

Barbour's half ovals are made of the highest quality rigid plastic available. Beautifully constructed, Barbour half ovals provide the ultimate in design in a variety of colors and lengths.

U Mouldings

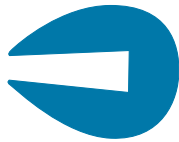

U mouldings can be used in combination: a rigid U Moulding piece inside and a flexible exterior piece which covers the fasteners.

Applications

- Finish rough edges
- Joining deck and hull seams
- Caps
- Sharp edge protector
- Banner frame

Barbour's superbly crafted L mouldings are an outstanding way to trim off raw edges.

L Mouldings

Applications

- Finish rough edges
- Counter top edging
- Corner guards
- Track guides
- Wall / floor anchor
- Edge trim
- Shelf dividers

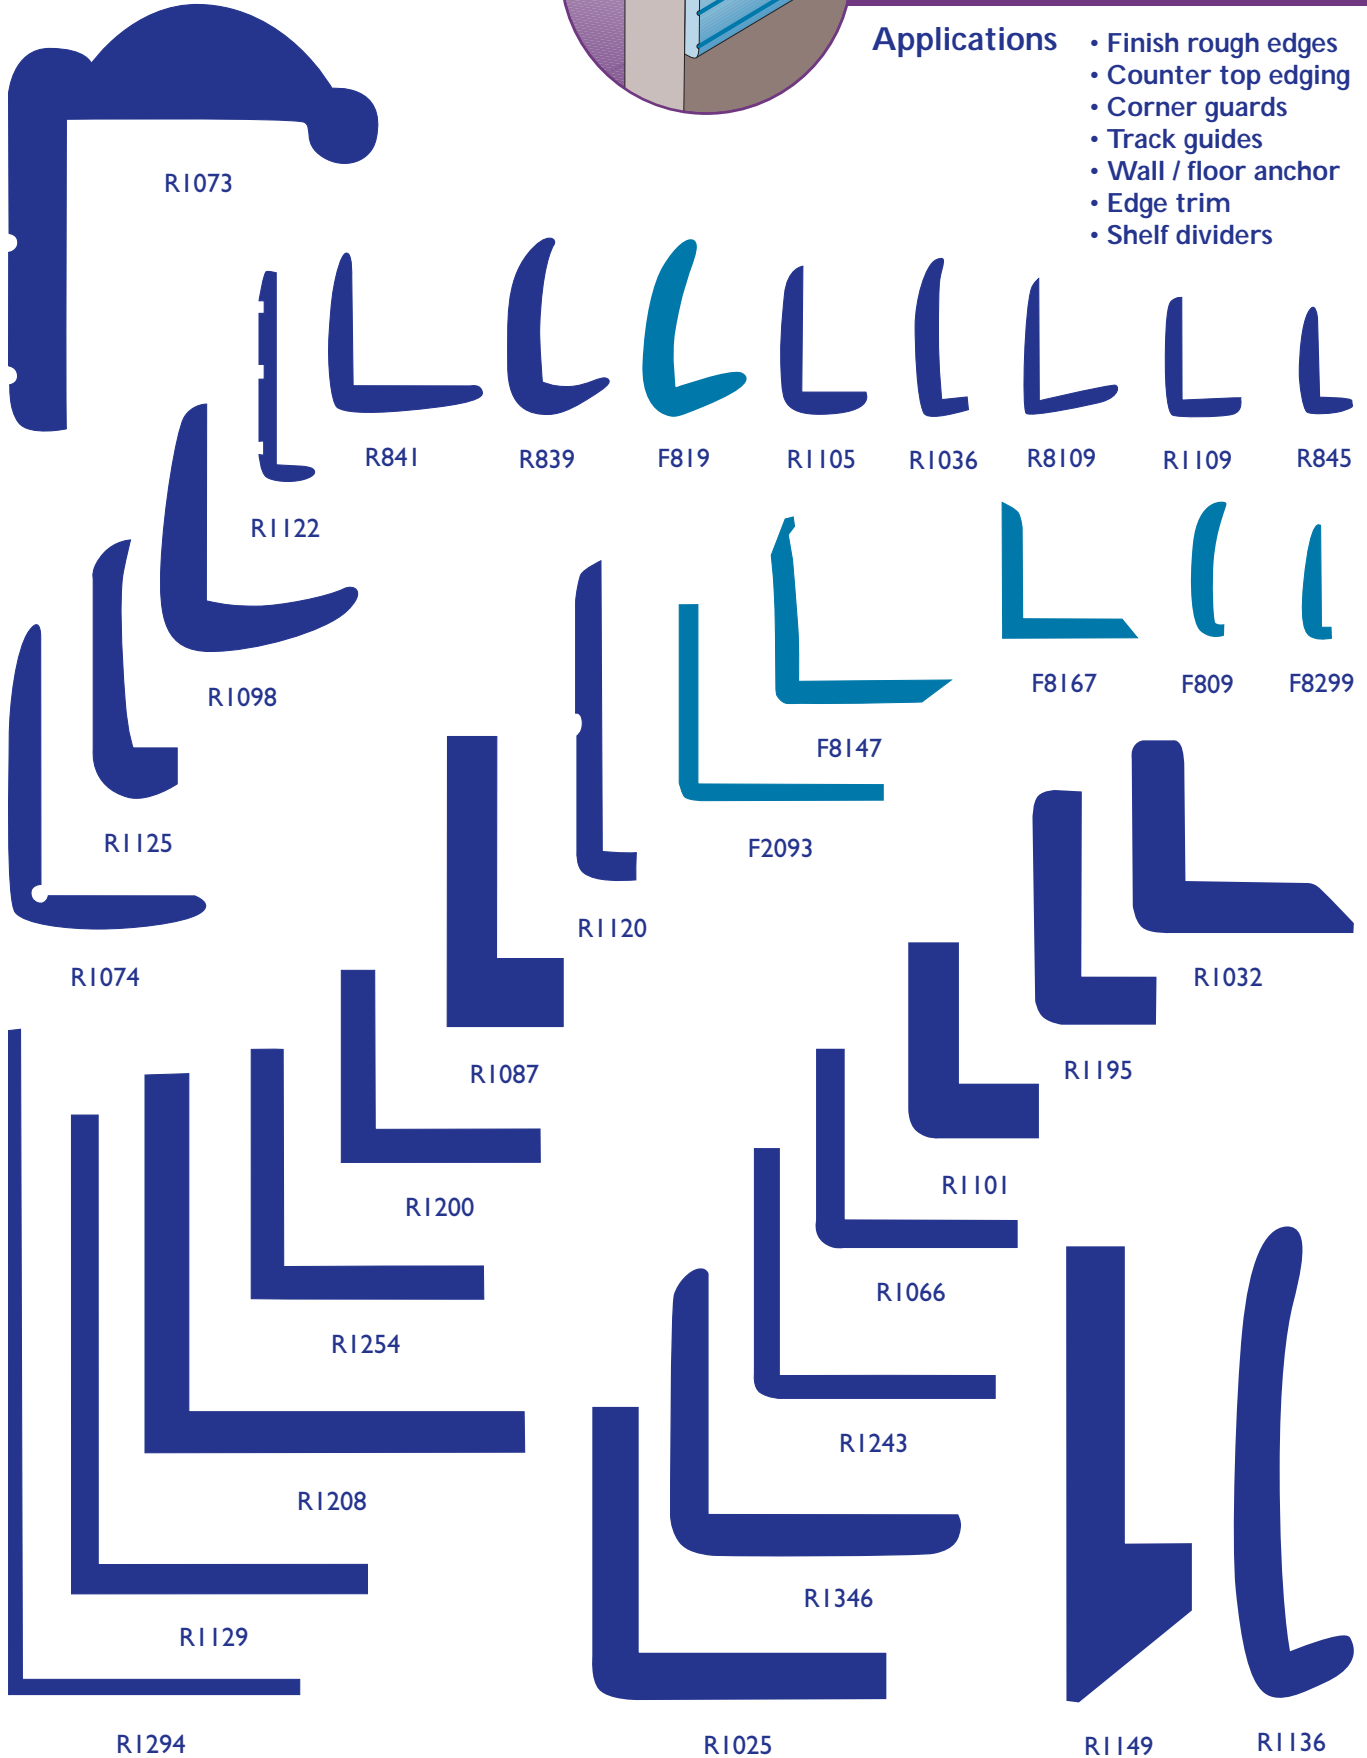

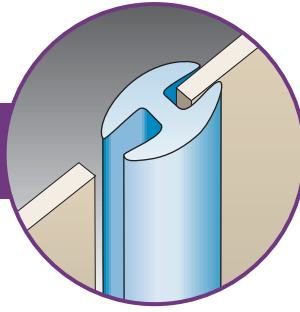

Table Edge & Interior Trim

Barbour's table edge and interior trim are perfect for joining panel seams or trimming off wall and table edges, often eliminating the need for time consuming gluing. The flexibility of these pieces allow them to bend and contour to desired applications.

Applications

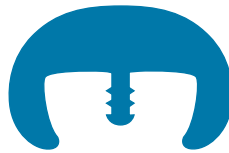

- Bathroom wall panel edging
- Table and counter edging
- Furniture edge trim
- Joint seams

One Piece Trim Units

Barbour's one piece trim units with self-adhesive backings ease installation dramatically. The self adhesive backing makes these trim units easy to handle, and aids in the overall application procedure. All items are available with either PSA or VHB Tape.

Applications

- Joint seams
- Carpet edging
- Gasketing
- Bumpers
- Edge trim
